Unit Overview

In this crucial and comprehensive unit, you will navigate the complex regulatory landscape of the aroma trades. This unit provides an in-depth understanding of the laws, guidelines, and best practices governing the production and marketing of aromatic products, ensuring compliance and consumer safety. You will cover regulations from the major international markets, with a global perspective that prepares you to operate effectively in any market. Whether focusing on fragrance or flavour, this unit equips you with the knowledge and skills to ensure your products meet international standards and thrive in a competitive global industry.
