iCATS Learning Pack

Unit Aims

By the end of the unit you will be able to:

- Examine the historical development and evolution of the aroma trades, perfumery, and the flavouring industry from antiquity to the twenty-first century
- Analyse the impact of scientific, socio-political, and economic factors on the fragrance and flavour trends across different historical periods and regions
- Evaluate the role of major religions, key texts, and technological advancements in shaping the global aroma trades and industry practices

UNIT LEARNING OUTCOMES

Demonstrate a comprehensive understanding of the key historical events and periods that influenced the aroma trades, perfumery, and flavouring industry

Critically analyse the evidence from texts, archaeology, and modern reconstructions to interpret the historical development of fragrances and flavours

Develop skills in historical research and analysis, and apply these skills to understand contemporary trends in the aroma trades

Utilise analytical techniques and historical data to recreate and assess ancient and historical fragrance and flavour profiles

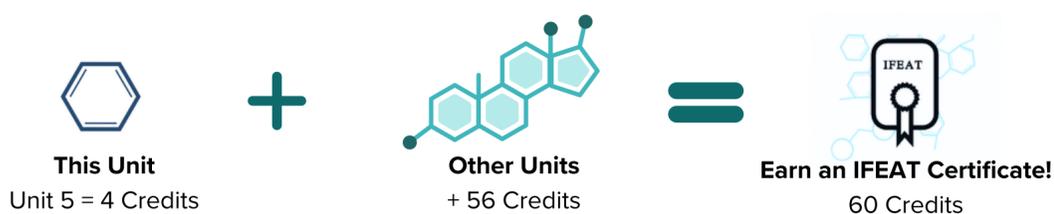

Enhance your ability to communicate complex historical and technical information effectively, improving your professional expertise in the global aroma industry

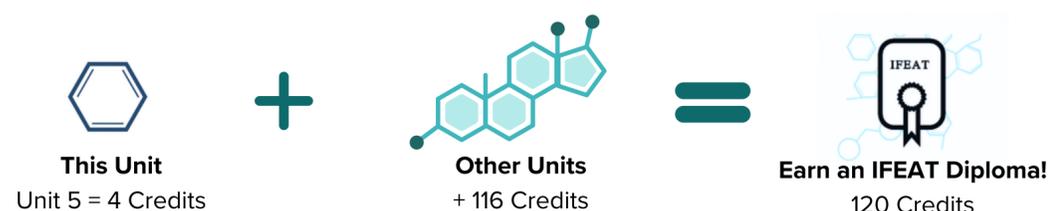

Synthesise knowledge of historical, scientific, and socio-political influences to predict future trends and innovations in the fragrance and flavour sectors
